

Match Events

Our Meet the Children match events are designed to bring together children waiting to be adopted from foster care with approved, home-studied families. The youth and families participate in a day filled with fun and activities to help the youth and families get to know each other.

At our events:

- Youth and families complete **community** building activities to promote **collaboration** and **connection**
- All guests **interact** to get to know each other
- Families can **meet** with youth's social workers and **network** with other families

What people are saying!

- “The games were great because you got to see the kids interacting and working together.”
- “It was great to hear from the children themselves, understand their personalities and such!”
- The entire ride back, my youth did not stop talking about how great of a time he had!”
